

HAWAIIAN PROGRESS.

The Life of the Land is Established in Rightness.

HONOLULU, NOV. 7, 1894.

A FIZZLE.

The proposed "charitable" association which is being arranged by Messrs. Bolte and Jones, and which has for an object to protect the ill-used planters is not getting along so nicely as the promoters hoped. It was believed that the scheme should be kept secret, but the wicked Holo-mu disclosed it through sources that cannot be fathomed—by the promoters and Mr. John D. Spreckels and his representative here are now in full possession of the facts that inform them of the treacherous move of a few disgruntled and impecunious financiers.

The proposition to treat the scheme as a charitable move or at least an attempt to do a benevolent thing to the plantation stockholders, big and small, is simply humorous. The secret object of the business is to furnish certain commercial gentlemen whose financial legs are not so stiff as they should be with means through the manipulation of which they will be able to tide over the present depressions in the commercial market and probably reach a safe shore after their financial swimming excursion.

They may find a few suckers who will follow them in their enterprise against Spreckels, but the majority of our planters will not embark in a venture which may cost them the enmity of that unrelenting concern which is represented by the king of Hawaii, Spreckels.

The association according to the terms of the agreement can not go into active operation until owners of 100,000 tons of sugar have subscribed. If the small stockholders watch their interests and take out injunctions against the directors of their companies, as has been done in two instances the prospects are that the association will be a total fizzle, and the promoters find that their dream of wealth and financial supremacy was only a bubble and a dream.

The Planters' Labor and Supply association has finished its work. A most unsatisfactory labor report was presented and very little work was done. The planters are either depressed or aware of the ominous calm that undoubtedly precedes a storm. Not a word was said in regard to Messrs. Jones and Bolte's "trust" and the Spreckels representatives who now have got onto the inside track of the new scheme retained a perfect silence while Mr. W. G. Irwin resigned from the presidency of the company.

The proposed establishment of an experimental station deserves the highest praise and will be beyond doubt be fully appreciated by all practical cane-growers. The association rubs the back of Frank Hastings by giving him a testimonial. At the same time it gives Thurston \$1,500 in cash. We are inclined to believe that Frank wouldn't mind changing with his famous or infamous boss.

It is understood that minister Hatch disavows the anti-asiatic expressions of Mr. Thurston published in Washington papers. It is now the custom of the representatives of the republic of Hawaii to "lie" out of every bad break made by its members. Would it not be better to employ gentlemen and trained politicians instead of placing "scrubs" in official positions where they always succeed in bringing ridicule and contumacy on the head of the government represented by them? Mr. Hatch has undertaken a serious contract if he believes that a double-barrelled smile from him and Damon can settle diplomatic disagreements and smother demands for explanations by the foreign representatives.

We give space in today's issue to two correspondents who deal harshly with the Dailey company. We always believe that all sides should be heard but we must say that we decidedly disagree with the would-be critics. In tomorrow's issue we shall refer more fully to this matter.

When the Japanese citizens a few days ago celebrated the birthday of the Mikado at a meeting at the Beretania Street Armory, somebody in the government saw fit to send a detachment of armed "citizens" to the place of celebration and allow a number of half-baked "republicans" to sport pistols and make a general asinine display of themselves. There was absolute no call for such a procedure. It is to be hoped that the action of the armed clerks, tailors and shoemakers was solely due to their own fertile imagination and not encouraged by the authorities. Under all circumstances we shall recommend the government to stop the indiscriminate carrying of fire arms by its patriotic and at times very "spirited" counter-jumpers. One of these days the pistols will be taken away from the irresponsible blather-skites and the A.U.P. will count a few members less. If the government did send these armed wolves in citizens clothes to guard a peaceful meeting of peaceful citizens of a foreign nationality it deserves all the ridicule and contempt which now fall to its lot.

Barnstormers All.

Allow me to take you to task for your adulation of the company of players who are now holding the boards at the Opera House. From your repeated commendations of their play I was almost persuaded that it might be a mistake on my part to suppose that they were unfit for most of the pieces they have attempted to render, and so, against my better judgment, I was induced to go and see their presentation of the "Henrietta," last evening. The first solecism I observed on the part of the management was the crediting of the play to Stuart Kobson as (author) were as everyone who knows anything of such matters knows that Bronson Howard wrote that charming play. The most unpardonable solecism, however, was the placing of such a play in the hands of such players, who are no more fit for it than they are for purposes of legislation. After having seen Stuart Robsonate person Bertie it was little joy to me to watch the very stagey Mr. Snow in that part; and with recollections of others of Robson's troupe, the very "dizzy" acting of some members of the Dailey combination proved exceedingly dismal. This remark applies with especial force to the parson, who in a good troupe, is the life and soul of the piece, from the moment of his tentry on the stage. The stock-jobbing parson of the author is by no means the stiff, dismal and seedy old party presented to us last night. Without going into a detailed critique of the presentation, let me venture the opinion that Mr. Snow passed the line of mediocrity, old Vanalstyne and his other son, with the old clerk closely approached that line, while the entire balance of the company were strung away at varying distances in the rear. It was most oppressive to sit through the solemn stillness attending some of the scenes that, with an even moderately accomplished company, would have kept the house convulsed with mirth. I am quite confirmed in my previous opinion that Mr. Dailey, having struck "velvet" on his last engagement here, thought he could safely dispense with what little talent his troupe contained, and palm off upon our long-suffering Honolulu public any kind of "barnstormers" that he could gather at the sound of his whistle from among the attaches of the numerous San Francisco stages. In my humble judgment this action on Mr. Dailey's part was not fair to Honolulu, nor creditable to himself, in fact, it looks not unlike dishonesty on his part.

Will you print the foregoing, as a mild, but well deserved protest against this action of Mr. Dailey in setting before the public of this city bills of fare very good in themselves, but so very badly served as to neutralize the good intentions and talents of the literary cooks who prepared them for the public, thus obliging a Good Natured Critic.

Some Don'ts of Dress.

Don't clothe yourself in man's apparel and expect the courtesy due to a lady.
Don't wear feathers in your hat and patches on your boots.
Don't wear a sailor hat and a blouse after your fortieth birthday.
Don't pioneer fashion with a cheap dressmaker.
Don't pinch your waist. Fat, like murder will out—somewhere.
Don't put all your allowance outside. A ragged petticoat kills the smartest gown.
Don't put cost before cut. Corded silk won't cover a clumsy fit.
Don't let your dressmaker dress you. Dress yourself. She may give you smartness, but individuality—never.
Don't sacrifice fitness to fashion.
Don't neglect quality for the sake of quantity.
Don't forget that although veils are becoming to most faces, feet veiled in lace stockings do not look well in the street.
Don't imagine that beauty will atone for untidiness.
Don't spoil the gown for the yard of stuff.
Don't dress your head at the expense of your hands and feet.
Don't be dashing—be dainty.
Don't make hay of your possessions and then credit your limited purse with your shabby appearance.
Don't imagine that a blouse or shirt, coat and sailor hat are suitable for women of every age and figure, on every occasion.
Don't wear a white petticoat unless it is white.
Don't wear heels to your boots unless you can afford to have them always and not half ones on one side only.
Don't put powder on your cheeks without looking in a glass afterward.
Don't make your own dresses unless you can do it really well.
—New York World.

Our Dudes Don't.

I am asked to explain why some men think it fashionable to turn up the bottoms of their trousers, and how such a fashion originated. Men may turn up their trousers in wet weather without reproach, because the doing so is neat and thrifty, but to turn up trousers in dry weather was first thought of by a lot of London bank clerks, who sit on the razor back tops of the Oxford-street omnibuses, and are apt to rub the bottoms of their trousers against the hardware of the seats. To keep them turned up through the day probably struck them as economical. But I have never seen men of fashion in London turn up their trousers under any circumstances. In wet weather they take cabs, but for one of them to appear on Rotten Row in this season with his trousers turned up would be justly considered as a serious breach of decorum. I am aware that a noble earl at a wedding recently in this city appeared at the altar with his trousers turned up. But I am forced to conclude he intended that as a cynical practical joke in the Anglo-manics and weak imitators he had met at the New York clubs, who think it is English to wear trousers turned up an inch at the bottom.—N. Y. Press.

Postponed.

The opening of the Kamehameha Girls' School has been postponed until the 19th of December, owing to the non-arrival of certain material for the school. Miss Pope, who will have charge of the school can be found every Saturday at the Queen Emma Hall from 9 to 12 in the morning. Parents and guardians who desire to place children in this new and valuable educational institution should lose no time in communicating with Miss Pope. The annual fee is only \$50, and only girls over 12 years will be received at present.

A CARD.

The undersigned now about to leave the country desires to thank the numerous hospitable and kind friends who have made these islands a true "Paradise of the Pacific." While embracing all and everybody in a general wish for future prosperity, I beg to tender my special gratitude to the Danish Consul Mr. Macfarlane; and to Messrs. Lane, Col-laco, and Chang Kim. I trust that the day may come when I will be able to reciprocate the numerous acts of friendship extended to me by the parties mentioned and others.

BEACH GROVE.

New Sea Side, Picnic and Bathing Resort.

HAS BEEN OPENED UP, AND IS NOW ready to receive visitors. The new resort is under the management of Charles F. Warren. The place is within a convenient distance from town, and two minutes walk from the Trolley Car (Bishop's switch). The premises which will be at the disposal of patrons comprises between four and five acres of beautiful grassy grounds, over-shaded by tropical trees. Also a complete outfit of bath rooms and bathing suits. There is a great deal of romance connected with these grounds. It is said to be the exact spot on the Beach where Kamehameha the conqueror landed with his thousands of warriors bent upon the conquest of Oahu. There is a sacred pond upon the land supplied from a legendary spring. For hundreds of years the natives have used this water for medicinal purposes more especially as they claim as an effective remedy for rheumatism and paralysis. Beach Grove or Kamehameha was a great chief and warrior. Kamehameha I. These new bathing and recreation grounds will be exclusively for the use of families. Ladies and children will enjoy a days outing at Beach Grove. The water is just deep enough to be comfortable with a nice sandy beach. This new resort supplies a long felt want and is sure of liberal patronage. Charges will be extremely moderate so as to come within the reach of all. All through the grounds there are arbors and shaded bowers furnished with tables and seats for the accommodation of those who bring along their own eatables. Sandwiches, cakes, soda water and lemonade on ice may be had at the premises. Honolulu, Nov. 5, 1894. 2 weeks-dly.

September 17, 1894.

If we remember correctly the "Charleston" was the first of the "White Squadron" to visit Honolulu. Her arrival on her second cruise is still in the minds of people who were here on January 29, 1891. When with flags at half-mast and yards cock-built she entered port with the body of King Kalakaua, the kind attentions shown by the officers to the King during the voyage to the United States and the, almost sacred manner in which the body was guarded while being borne to the Islands, endeared the "Charleston" to the people of Hawaii. As much as it was in the power of the people, their appreciation was shown to the officers during their stay and when sailed they left graven on tablets of love and memory, evidences of their Aloha for Hawaii. Few, if any, of the officers who were here then are on the vessel now; some have reached the age of retirement and others have gone to other vessels but the Charleston is still green in the heart of the Hawaiians. Have you ever used a Pansy Stove? We have been selling them for four or five years and to-day they wear the "Yellow Coat" in the empire of stoves. They are recognized by every one, even dealers in other stoves, as a superior article and one which they do not care to run up against. Of course stoves may be bought from people who are not dealers. We have people running here every day or two for fire bricks and parts belonging to stoves they have bought from other parties, and when they find they cannot get them they discard their stoves and buy a "Pansy." You see there is a disadvantage in buying dear things at low prices. Come to us and get a Pansy at \$15.00 and you get full value for your money. You don't get a \$75.00 range for fifteen dollars, mind you, but you get a first class stove that is worth Thirty dollars to any one.

Our Ready Mixed Paints are suited to the wants of people who have a little painting they want to do themselves. The advantage in buying a prepared paint is that you have the benefit of the best mixers in the United States without having to pay for it. The paint is ready for use directly you take the top off the can and if you don't find it cheaper and better than any you can mix yourself we are mistaken in our experience. In California the painters are using the prepared article in preference to buying lead and oils because they find it to their advantage to do so. We believe it is only a question of time when the painters here will fall into line.

Hanging lamps are in as great demand now as ever. People seem to want something for lighting purposes that will give as good light as the sun—they find it in the lamps we are giving away. Our cheap stand lamps are an excellent thing for a servants room and will find a ready sale in the Island stores. We can supply any demand for a single lamp or for a thousand.

There's lots of Hawaiians whose Kuleanas need fencing and we have the wire with which to do it. We have also the material for building a fence that will last until long after the millennium. Instead of paying a high price for posts, or even getting them for the cutting, your fence will cost you less money if you buy steel stays and washers and make a Jones Locked fence.

We have everything you want in the hardware and house furnishing goods line you wish. And we court investigation as to their quality and prices.

LADIES' COLUMN.

The demand for white cotton Dress Goods during the last week has induced us to continue the sale of those on hand until they are all sold. Remember this means that YOU BY THE WAY JUST WHAT THEY COST US, not one cent more or one cent less. We ain't making any money on these kind of sales, but it gives us room for the immense stock of new goods that have arrived by the "Australia."

We want to move our Hosiery at our Quick Sales and Small Profit Prices, so the LADIES' BLACK STOCKINGS will go again this week at last week's prices, or the \$3 per dozen ones at \$2.25 per dozen, while the \$5 per dozen ones will go at \$4 per dozen. The same with MEN'S SOCKS: the \$3 per dozen ones are now \$2.25 per dozen. We also want to call Special Attention to the magnificent White Cotton Embroidered Handkerchiefs offered this week. They are not cheap ones, its the price of them that is cheap.

The interest also increases in our Volcano trip and it is quite evident from late reports that Madame Pele is making great preparations to do her part for she has been throwing up fountains of fire fifty feet high during the last week and every indication goes to show that by the time you are ready to go she will be in her glory.

Remember and save every check if you do not have enough you can give them to friends who are making up clubs. This week is a great week for buyers.
